

# Participation overview for developments in the Christinastraat by 'thuis

When can you (as a resident or neighbor) participate in the developments for the future of the Christinastraat flat and the old school?

Weekly walk-in hours with the resident counselor from 'thuis, in the building at Christinastraat. Visit [www.mijn-thuis.nl/christinastraat](http://www.mijn-thuis.nl/christinastraat) for the times.

Setup social plan **i** by residents' committee (tenants of 'thuis) with 'thuis and with independent support by the Woonbond.

*Note: Only for residents of 'thuis rental apartments on Christinastraat*

What is a social plan? Visit [www.mijn-thuis.nl/christinastraat](http://www.mijn-thuis.nl/christinastraat) for more info.

## What's going on behind the scenes?

### Work session participation facilitators and architect

After the street conversations and online questionnaire, cocosmos makes a summary of all the needs, opportunities and tips from the residents and neighbors. We work together with the architect to make sketches that meet the needs of the neighborhood.

### Step by step: Improving sketches through feedback from residents and local residents

cocosmos continuously summarizes feedback from residents and neighbors from the walk-in market and online questionnaires and polls. Based on this, the architect makes a new version of the Sketch Design. All summaries are posted on the project website.

### Change of the "bestemmingsplan"

Once the Final Design has been adopted by 'thuis, it is time to apply to the municipality for an amendment to the zone plan (bestemmingsplan) for this area. This includes a public participation option. **i**

What is a "bestemmingsplan" and how does the procedure work? Visit the website at [www.mijn-thuis.nl/christinastraat](http://www.mijn-thuis.nl/christinastraat)
